Tina Pedley – Pilgrim's
Tony Armen – Dixie Pipeline
Wayne Barber – Sanford Fire Department
Yancy King – NC Emergency Management

The Lee County Local Emergency Planning Committee met on March 30, 2016 at Lee County Emergency Services, 204 West Courtland Drive, Sanford, NC.

Chairman Roger Tankersley called the meeting to order at 11:39 a.m. and welcomed everyone; individual introductions followed.

A motion was made by Kimberly Killian to accept the meeting minutes, as presented, from the December 16, 2015 meeting; seconded by Wayne Barber; unanimous vote.

Chairman Tankersley asked for a motion to approve the agenda, as so altered; motion made by Kimberly Killian, seconded by David Vann; motion carried unanimously.

No one was present to make public comments.

Shannon Cagle, Lee County Health Department, updated the committee on the "Bright Ideas" grant and provided information and handouts referencing the Zika virus. (copy attached)

Scott Fister announced that Caterpillar Appreciation Day is going to be held at their facility on May 21st. The committee discussed the possibility of educational resources and service offerings within Lee County that could tie in with the event. Information in the format of flyers and brochures on a variety of topics to hands-on demonstrations were some suggestions of the committee.

David Vann mentioned that the 86th Annual N.C. Statewide Safety Conference is going to be held on May 10-12, 2016 at the Joseph S. Koury Convention Center in Greensboro, NC. He added that the conference provides a great networking opportunity for environmental industries. Anyone interested in attending this free conference will need to register at www.ncsafetyconference.com.

Donna Matthews stated that the 2016 Safety Award Banquet has been scheduled for June 14th, 11:30 a.m. at the City of Sanford Public Works Service Center.

Chairman Tankersley opened the floor for suggestions on topics of information they would like to see presented through the LEPC. This discussion further led to Chairman Tankersley asking if any organization/company would like to volunteer to share what resources are available at their facility and the types of materials that are being dealt with. The committee agreed that having presentations from the various facilities would provide a broader knowledge base and understanding of what takes place in industries throughout the county. In response to presenting to the LEPC at future meetings, two volunteers came forward, Kimberly Killian, GKN for the June meeting and David Vann, Coty for December.

Michael Tatum presented a short video on "Oclansorb", a natural oil absorbent, and provided contact information for A-1 Supply Company, distributor of this product and other hazmat clean-up supplies.

Therefore being no further business, the meeting was adjourned at 12:28 p.m. by a motion made by Wayne Barber; seconded by Kimberly Killiam and motion carried.

The next meeting date has been pre-scheduled for June 15, 2016.
